Vanilla Essence

Scarlet Splendour's debut collection designed by Italian designer Matteo Cibic, Vanilla Noir was launched in the Milan Design Week 2015. The furniture collection is inspired by Indian handicraft of bone and horn inlay and translated into a contemporary fusion of modern polymers and pigments.

The collection is reminiscent of movies of the silent era, classic yet fun and a pleasure to return to. The brand claims to be a movement in décor design—by the sibling team, Ashish Bajoria and Suman Kanodia. The Circus Spree (featured here) is a gorgeous versatile small round table. Price on request.
